

TRANSTAR PRIMERS

***For the ultimate
START to your
memorable FINISH,
insist on Transtar.***

- Leading edge technology including: waterborne, urethane, epoxy, 2.1 V.O.C. and direct to metal
- Corrosion protection
- V.O.C. compliance
- Reduced cycle times
- Adhesion to wide variety of substrates
- Easy sanding wet or dry

2K Epoxy Primer Sealer

Epoxy Primer Sealer is an exceptional lead and chromate-free, corrosion-resistant coating with excellent adhesion on a variety of properly prepared surfaces. 2K Epoxy Primer improves adhesion of body fillers and resists moisture damage caused by water permeation. If further reduced, this product may be used as a precoat or sealer /groundcoat prior to topcoating. 1:1 mix ratio using 6934/6937 Activator.

6104	Epoxy Primer (White), Quart	6/case
6131	Epoxy Primer (Gray), Gallon	2/case
6134	Epoxy Primer (Gray), Quart	6/case
6141	Epoxy Primer (Activator), Gallon	2/case
6144	Epoxy Primer (Activator), Quart	6/case
6161	Epoxy Primer (Black), Gallon	2/case
6164	Epoxy Primer (Black), Quart	6/case

Self Etching Primer

Transtar's Self Etching Primer is a two-part, self-etching and passivating primer. This system provides excellent protection against corrosion to bare metal, thereby eliminating the need for metal conditioning. Self Etch Primer features an easy mix ratio and requires no induction time prior to using. Easy 1:1 mix ratio.

6111	Self Etching Primer, Gallon	2/case
6114	Self Etching Primer, Quart	6/case
6121-F	Self Etching Activator, Gallon	2/case
6124-F	Self Etching Activator, Quart	6/case

EZ Sand 2K Acrylic Urethane Primer

EZ Sand Acrylic Urethane Primer is a premium lead/chrome-free, two component acrylic urethane primer surfacer. EZ Sand provides exceptional fill and build, yet provides a base which yields excellent topcoat holdout, gloss and D.O.I. Sands easily wet or dry. 4:1:1 mix ratio using 6934/6937 Activator and Urethane Grade Reducers.

6401	EZ Sand 2K Acrylic Urethane Primer (Gray), Gallon	2/case
6404	EZ Sand 2K Acrylic Urethane Primer (Gray), Quart	6/case

2K Kwik Prime – Direct to Metal Primer (ISO-FREE)

Kwik Prime is a two component primer surfacer that can be applied direct to metal surfaces. It is quick drying and easy to sand wet or dry. Kwik Prime provides corrosion protection along with excellent fill and build properties. This unique primer provides improvements in productivity and reduces cycle times while providing significant labor and material savings. May be tinted. Easy 4:1 mix ratio.

6441	2K Kwik Prime, Gallon	2/case
6444	2K Kwik Prime, Quart	6/case
6454	2K Kwik Prime Activator, Quart	4/case
6457	2K Kwik Prime Activator, 1/2 Pint	12/case

Kwik Fill Polyester Primer Surfacer

Kwik Fill Polyester Primer Surfacer is a catalyzed primer surfacer that offers excellent fill and build capabilities. It can provide one-coat coverage for many applications. Its fast drying and easy sanding features make it the ideal primer for every day use. Kwik Fill's chemical cross-link cure provides excellent sealing and holdout properties when used over body filler repair areas. It has excellent adhesion to a wide range of substrates including metal, galvanized metal, fiberglass, SMC, aluminum, body fillers and polyester glazing putties, and over properly prepared old finishes. Easy mix ratio, 2% by volume with hardener included.

6541-G	Kwik Fill Polyester Primer (Gray), Gallon	4/case

2K Acrylic Urethane Primer

2K Acrylic Urethane Primer is a premium, lead/chromate-free, two component acrylic urethane primer surfacer. 6561/6564 provides exceptional fill and build and provides a base which yields excellent topcoat hold out, gloss and D.O.I. 2K Acrylic Urethane Primer sands easily wet or dry and can be directly topcoated with alkyd enamels, acrylic enamels, lacquers, acrylic urethane enamels and basecoat/clearcoat systems. Easy 4:1 mix ratio.

6561	2K Acrylic Urethane Primer, Gallon	2/case
6564	2K Acrylic Urethane Primer, Quart	6/case
6584	2K Acrylic Urethane Primer Activator, Quart	4/case
6587	2K Acrylic Urethane Primer Activator, 1/2 Pint	12/case

2K Hi-Performance Acrylic Urethane Primer

A two component acrylic urethane primer surfacer designed for basecoat/clearcoat refinishing. 2K Hi-Performance Acrylic Urethane Primer provides excellent fill and build characteristics, and sands easily wet or dry without clogging. It provides an excellent base for the topcoat, thus offering excellent topcoat holdout, gloss and D.O.I. 6921 can be directly topcoated with alkyd enamels, acrylic enamels, urethane enamel basecoat/clearcoat systems and lacquers. Easy 4:1:1 mix ratio.

6921	2K Hi-Performance Acrylic Urethane Primer, Gallon	2/case
6934	2K Acrylic Urethane Primer Activator, Quart	4/case
6937	2K Acrylic Urethane Primer Activator, 1/2 Pint	12/case

Hydrobase® V•2 Waterborne Urethane Primer

Hydrobase® V•2 is a premium grade, one-component primer surfacer that provides outstanding fill and flow without sag. It is fast drying and offers excellent adhesion to a wide variety of substrates. It can be directly topcoated with: solvent and water based basecoats and clearcoats, single stage urethanes, polyurethane enamels, synthetic and acrylic lacquers.
